## **MPS 40 Software Release Notes v5.01.01**

### **Configurable System Backup**

MPS 40 can now perform system backups to any removable storage device and/or network folder. This makes it even easier to ensure important files are safely stored in the preferred location.

### **Intelligent Mail Barcode (IMB) for Wholesale Lockbox Application**

The Postal Barcode Reader can be used on IMB for improved reads and better results on skewed barcodes.

### **Image Processing Improvements**

Imaging algorithms have been modified for improved barcode read rates.

### **Run Screen Status Indicators**

Color indicators and messages on the run screen allow Operators to quickly see the current status of the feeder, machine, and printer.
