## **ONS+ Configuration Utility Software Release Notes v2.0**

### **Support for New Products**

The Model 72 and AS7200 are now compatible with ONS+.

### **Backup and Restore Features**

Files can be exported to or imported from external media to backup and restore statistics.

### **REDLink Feature**

OPEX Rapid Extraction Desks (REDs) that are integrated with OPEX AS-Series scanners can connect to ONS+ through the scanning device. REDLink has an updated layout and user interface for machine status, statistics, and job setup.
