OPEX® FALCON V+® RED™

Mail Opening & Scanning Designed to Minimise Prep

WHY THE FALCON+® RED?

Easily handle peak mail volumes and labour challenges with the OPEX Falcon+ RED document scanner with integrated mail opening and extracting capabilities. Using the Falcon+ RED, mailroom operations process incoming mail as soon as it is received, directly out of the envelope. Open a variety of envelope types and scan a wide range of document sizes, thicknesses, or conditions while producing high-quality images and usable data in seconds. Only requiring one operator per system, the Falcon+ RED mail scanning platform minimises prep work, pre-sorting, and manual processes, resulting in reduced labour costs and improved productivity. It provides one of the fastest ROIs on the market.

FEATURES

UNIVERSAL DOCUMENT FEEDER
The Falcon+ feeder reduces the need to prepare documents prior to scanning and enables documents to be fed as both single pages or in stacks of intermixed weights and sizes.

CERTAINSCAN® SOFTWARE
OPEX® CertainScan® allows for customised scanning jobs, identifies page types within a job, and automates many traditional document prep activities - all while integrating with your existing software.

INTEGRATED MAIL OPENING AND EXTRACTION
The Falcon+ Scanner easily integrates with the Rapid Extraction Desk (RED) for easy mail opening, extraction, and scanning on a single platform. Open a wide variety of envelopes and feed the contents directly into the scanner to create high-quality images.

ENHANCED MULTI-FEED DETECT
Seven strategically placed Ultrasonic Multi-Feed Detectors (MFDs) recognise double feeds, sticky notes, and turned corners anywhere on a page and notifies the operator, helping produce the most accurate scanning results in the market.

ADVANTAGES

EFFICIENCY AND FLEXIBILITY
The Falcon+ RED scanner can easily process anything from thick paper to onion skin to fragile or damaged pieces, without pre-sorting. It can process envelopes and file folders, receipts, and other small pages without taping or copying. It can even handle X-rays and three- dimensional objects with ease.

ENHANCED SORTING CAPABILITIES
Available in configurations of three or five programmable sort-bins, the Falcon+ RED provides versatile and unique sorting abilities. With expanded bin capacity, the Falcon+ RED allows for a nearly unlimited batch size. All Falcon+ RED models are equipped with an additional pass-through bin, ideal for thick and delicate items.

ONE-TOUCH SCANNING
Falcon+ RED document scanners minimise virtually all prep, paper handling, and manual tasks to ensure a safe, fast, and accurate document transformation process.

SUPERIOR SECURITY AND DOCUMENT INTEGRITY
In today's world of heightened data security and compliance, One-Touch Scanning ensures efficient, safe, and secure document transformation that makes sense, guarding against costly data breaches.

OPEX® FALCON⁺® RED™

SPECIFICATIONS

PHYSICAL DIMENSIONS (HxWxD)

Falcon+ RED	55" x 111.10" x 41.60" (139.7 cm x 282.194 cm x 105.66 cm)
FalconV+ RED	61.60" x 111.10" x 42" (156.46 cm x 282.2 cm x 106.7 cm)

ADDITIONAL SPECIFICATIONS

Scanning Speed	Up to 120 ppm (letter)/115 ppm (A4) @ 300 dpi
In-Line Recognition	OCR, OMR, barcodes, document type ID
Document Feeding	High-capacity auto feed, continuous drop feed, packet feed, rescan feed
Daily Duty Cycle	Unlimited
Media Detection	Multi-feed detection, height, length, skew, and envelope detection
Bundled Software	CertainScan® 64 bit host software, CertainScan® Edit™, CertainScan® Transform™, OPEX standard barcode package, Windows 10 64 bit

DOCUMENT DIMENSIONS

Length	3.5"-25.50" (8.89-64.77 cm)
Width	2.0"-12" (5.08-30.48 cm)

STANDARD FEATURES:

- Automatic page classification
- Automatic de-skew
- 7 Ultrasonic Multi-Feed Detectors
- 600 dpi capture
- Thick document sorting
- 3 or 5 programmable sort bins
- Mixed document capture
- 22" touch-screen display
- Wireless keyboard/mouse
- Packet-sensing technology
- Early envelope detect
- Multi-Function ID Assist™
- Reference ID
- Top Bin Mirror
- TMD override

OPTIONAL FEATURES:

- External digital capture
- MICR/MICR+ (US Only)
- Mobile Work Surface
- 1D and 2D Barcodes
- ScanLink API
- VRS* Technology
- Key Assist™
- Bankers Box Cart
- Audit trail printing (front & rear)
- Rear graphics printer for signature and code 39 barcode printing
- CertainScan® Edit™ and
- CertainScan® Transform™ on external PC
