OPEX
GEMINI®
Revolutionary.
Efficient. Versatile.

WHY GEMINI®?

Right-Speed™ Scanning Technology.

A revolutionary technological breakthrough, Gemini® combines the versatility of Right-Speed™ scanning, exceptional image quality and the configurability of the CertainScan® software suite. With its dual feeder capabilities, the OPEX® Gemini scanning solution is the only scanner to handle all document types at the right speed, requiring minimal document preparation while eliminating multiple scanning devices. Whether you're scanning clean stacks or difficult to prepare, damaged, or delicate documents, Gemini will drive your business now and in the future.

FEATURES

RIGHT-SPEED™ SCANNING

Designed for efficiency and speed, OPEX Gemini scanners seamlessly shift to the right speed to scan documents and maximise throughput: High speeds of 240 ppm (480 IPM) at 300 dpi, and complex sorting and recognition at up to 120 ppm (letter)/115 ppm (A4) @300 dpi.

HIGH-SPEED STACK FEEDING

Operators are able to continuously stack documents at high speeds while dropping individual sheets without having to stop. In addition, Gemini offers a unique rescan feeder for fast recovery from jams and rejects.

CERTAINSCAN 6.0 SOFTWARE SUITE

CertainScan 6.0 software allows users to optimise the functionality of their Gemini scanner with minimal document preparation before scanning. CertainScan offers businesses a robust capture tool with image cleaning, recognition/indexing and quality control.

PROGRAMMABLE SORT BINS

Gemini is equipped with five programmable sortation output bins that allow for versatile and unique sorting. All Gemini scanners include an additional pass-through bin, ideal for thick and delicate items.

ADVANTAGES

VERSATILITY

Powered by Right-Speed scanning technology, Gemini easily handles the widest variety of document types, sizes and conditions. Gemini integrates with most back-end software by creating custom file and metadata outputs using the highly configurable CertainScan software to meet your unique business needs.

CONFIGURABILITY

The Gemini scanning solution is highly configurable to meet your growing needs. Robust software enables jobs with configurable outputs created to feed back-end software without the need for middleware. Configure workstations to fit a wide variety of needs and sort using programmable bins based on document identification.

EFFICIENCY

With Gemini scanners, document preparation is minimal, reducing the need for additional labour. Easily switch to different workflows and speeds using predefined jobs to achieve maximum throughput. Streamline downstream processing with batch perfection that prevents exceptions from being released into the workflow.

PROFITABILITY

Achieve a rapid return on investment through reduced implementation costs and real-time throughput optimisation. Gemini scanners reduce the need for additional manpower, requiring fewer operators to prepare and scan documents. Gemini equipment adapts to volume or workflow types, with the ability to create new job configurations quickly and efficiently.

SPECIFICATIONS

PHYSICAL DIMENSIONS (HxWxD)

Gemini	79.5" x 102" x 35" (199.39 x 259.08 x 86.36cm)

ADDITIONAL SPECIFICATIONS

Scanning Speed	Up to 240 ppm (letter)/245 ppm (A4) @ 300 dpi
In-line Recognition	OCR, OMR, barcodes, document identification
Document Feeding	High-capacity auto-feed, continuous feeding, packet feed, drop/scan feeding, rescan feed
Daily Duty Cycle	Unlimited
Media Detection	Multi-feed, skew, height, length, and envelope detection
Bundled Software	CertainScan® 6.0 64-bit host software, CertainScan® Edit™, CertainScan® Transform™, CertainScan® Monitor, OPEX standard barcode package, Windows 10 64-bit

DOCUMENT DIMENSIONS

Length	3.5" - 25.5" (8.89 - 64.77cm)
Width	2.0" - 12.0" (5.08 - 30.48cm)

STANDARD FEATURES:

- Automatic page classification
- Automatic misalignment
- Automatic envelope detection
- 7 ultrasonic multi-feed detectors (standard)
- 600 dpi capture
- Thick document sorting
- 5 programmable sort bins with paper sensing bin management
- Mixed document capture
- 22" touch screen
- Wireless keyboard/mouse
- CertainScan post-scan (limited time only)
- Thickness sensor
- Deposit/Refeed Slot
- Feed height adjustment
- Feeder with automatic package detection

OPTIONAL FEATURES:

- External digital capture
- MICR+ (US only)
- Mobile work surface
- 1D and 2D barcodes
- ScanLink API
- VRS* technology
- Key Assist™
- Bankers Box Cart
- Multifunctional Wireless ID Wizard
- Reference ID
- Audit trail printing Graphic printers (front and back)
- High compression PDF
- Additional CertainScan Edit and CertainScan Transform applications
- CertainScan Transform add-on application
- ProcessLink API
