

OPEX[®]

NEXT GENERATION AUTOMATION

WHO IS OPEX?

OPEX[®] Corporation is a global leader in Next Generation Automation, providing innovative, unique solutions for warehouse, document and mail automation. With a comprehensive suite of customized, scalable technology solutions, OPEX helps clients transform how they conduct business by improving workflow, reducing costs, and driving efficiencies in infrastructure.

The company is vertically integrated - innovating, engineering, manufacturing, selling, and servicing all its automated solutions. This translates to the highest degree of quality equipment, reliable operations, product longevity, and an exceptional client experience. OPEX is powering the future of commerce with cutting-edge robotics for Warehouse Automation, and setting the standard in operational efficiency for Document and Mail Automation.

PRODUCT OFFERINGS

OPEX offers two distinct product lines - Warehouse Automation, and Document and Mail Automation. A complete summary of offerings can be found below.

WAREHOUSE AUTOMATION

OPEX is on the vanguard of Warehouse Automation, with solutions delivering game-changing technology that transforms clients' supply chain infrastructure. The company's modular, flexible systems are custom engineered for each client and easily adapted to meet evolving business needs. Our solutions solve challenges for ecommerce fulfillment, reverse logistics, micro-fulfillment, and cross-docking.

Product offerings in this line of business include:

- Automated Sorting Systems
- Automated Storage and Retrieval Systems
- Order Fulfillment Software
- Performance Monitoring Software

DOCUMENT AND MAIL AUTOMATION

OPEX is the industry leader in Document and Mail Automation, partnering with clients worldwide to help streamline processes and set the standard for operational efficiency. The company provides advanced Document and Mail Automation solutions across numerous industries, including service bureaus, law firms, banks, medical and health organizations, forms processing and archival agencies, and government institutions.

Product offerings in this line of business include:

- Document Scanners
- Automated Mail Openers
- Automated Mail Sorters
- High-Speed Remittance Processors
- Order Fulfillment Software
- Performance Monitoring Software
